SAFETY DATA SHEET

Security Coat

Section 1. Identification

| GHS product identifier | : Security Coat |
|------------------------|------------------|
| Other means of | : Not available. |
| identification | |
| Product type | : Liquid. |

Relevant identified uses of the substance or mixture and uses advised against Not applicable.

| Supplier's details | : Tech International, 200 East Coshocton Street, Johnstown, Ohio 43031, 740-967-9015 CHEMTREC: 1-800-424-9300 |
|--|--|
| Manufacturer | : Tech International, 200 East Coshocton Street, Johnstown, Ohio 43031, 740-967-9015, CHEMTREC 1-800-424-9300 |
| Distributor | : Tech International, 200 East Coshocton Street, Johnstown, Ohio 43031, 740-967-9015 CHEMTREC: 1-800-424-9300 |
| Emergency telephone number (with hours of operation) | : Chemtrec 1-800-424-9300 (24hrs) CHEMTREC Brazil (Rio De Janeiro): +(55)-2139581449 CHEMTREC Mexico: 01-800-681-9531 CHEMTREC Russia: 8-800-100-6346 |

Section 2. Hazards identification

| OSHA/HCS status | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
|--|--|
| Classification of the substance or mixture | : Not classified. |
| | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 41.7% |
| | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 41.7% |
| GHS label elements | |
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements | |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| Supplemental label elements | : Do not taste or swallow. Wash thoroughly after handling. |
| Hazards not otherwise classified | : Causes digestive tract burns. |

Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
|----------------------------------|------------------|
| Other means of identification | : Not available. |

CAS number/other identifiers

| CAS number | : Not applicable. |
|------------|-------------------|
| | |

| Date of issue/Date of revision | |
|--------------------------------|--|
|--------------------------------|--|

Section 3. Composition/information on ingredients

: 738

Product code

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

| Eye contact | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
|--------------|---|
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

| Most important symptoms/ | effects, acute and delayed |
|-----------------------------|---|
| Potential acute health effe | <u>cts</u> |
| Eye contact | : No known significant effects or critical hazards. |
| Inhalation | May give off gas, vapor or dust that is very irritating or corrosive to the respiratory system. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : Corrosive to the digestive tract. Causes burns. |
| Over-exposure signs/sym | <u>otoms</u> |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : Adverse symptoms may include the following: stomach pains |
| Indication of immediate me | dical attention and special treatment needed, if necessary |
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | | | | | | |
|--|-------------------|--------------------------|-----------------------|-----------------|-----------|------|
| Suitable extinguishing media | : Use an extir | nguishing agent suitable | for the surrounding f | fire. | | |
| Unsuitable extinguishing media | : None known | ٦. | | | | |
| Specific hazards arising from the chemical | : In a fire or if | heated, a pressure incr | ease will occur and t | he container ma | ay burst. | |
| Hazardous thermal decomposition products | : No specific | data. | | | | |
| Date of issue/Date of revision | : 2/24/2014. | Date of previous issue | : 2/24/2014. | Version | :0.02 | 2/10 |

Section 5. Fire-fighting measures

| Special protective actions for fire-fighters | : | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
|---|---|---|
| Special protective equipment for fire-fighters | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protec | tiv | e equipment and emergency procedures |
|--------------------------------|------|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | onta | ainment and cleaning up |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautions for safe handling | | |
|--|---|--|
| Protective measures | n appropriate personal protective equipment (see Section | า 8). |
| Advice on general occupational hygiene | g, drinking and smoking should be prohibited in areas whe ed, stored and processed. Workers should wash hands ng and smoking. Remove contaminated clothing and pro ng eating areas. See also Section 8 for additional inform ures. | and face before eating, otective equipment before |
| Conditions for safe storage, including any incompatibilities | in accordance with local regulations. Store in original co sunlight in a dry, cool and well-ventilated area, away from Section 10) and food and drink. Keep container tightly cl for use. Containers that have been opened must be can be to prevent leakage. Do not store in unlabeled container inment to avoid environmental contamination. | m incompatible materials osed and sealed until refully resealed and kept |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

| Appropriate engineering controls | Good general ventilation should be sufficient to control worker exposure to airborne contaminants. | |
|----------------------------------|--|----|
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. | • |
| Individual protection measu | | |
| Hygiene measures | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safet showers are close to the workstation location. | |
| Eye/face protection | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. | \$ |
| Skin protection | | |
| Hand protection | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this necessary. | |
| Body protection | Personal protective equipment for the body should be selected based on the task bei performed and the risks involved and should be approved by a specialist before handling this product. | ng |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by specialist before handling this product. | |
| Respiratory protection | Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the satisfies a fitte of the advected respirator. | |

Section 9. Physical and chemical properties

| - | | | | | | |
|--|--|--|--|--|--|--|
| Appearance | | | | | | |
| Physical state | : Liquid. [Viscous liquid.] | | | | | |
| Color | : Gray. [Light] | | | | | |
| Odor | : Surfactant. [Slight] | | | | | |
| Odor threshold | : Not available. | | | | | |
| рН | : Not available. | | | | | |
| Melting point | : 0°C (32°F) | | | | | |
| Boiling point | : 100°C (212°F) | | | | | |
| Flash point | : Not applicable. | | | | | |
| Burning time | : Not applicable. | | | | | |
| Burning rate | : Not applicable. | | | | | |
| Evaporation rate | : <1 (butyl acetate = 1) | | | | | |
| Flammability (solid, gas) | : Not available. | | | | | |
| Lower and upper explosive (flammable) limits | : Not available. | | | | | |
| Vapor pressure | : 0.31 kPa (2.3 mm Hg) [room temperature] | | | | | |
| Date of issue/Date of revision | : 2/24/2014. Date of previous issue : 2/24/2014. Version : 0.02 4/10 | | | | | |
| | | | | | | |

working limits of the selected respirator.

Section 9. Physical and chemical properties

| Vapor density | : | 0.62 [Air = 1] |
|--|---|--|
| Relative density | : | 0.98 |
| Solubility | : | Not available. |
| Solubility in water | : | Not available. |
| Partition coefficient: n- octanol/water | : | Not available. |
| Auto-ignition temperature | : | Not available. |
| Decomposition temperature | : | Not available. |
| SADT | : | Not available. |
| Viscosity | : | Kinematic (room temperature): 270 cm ² /s (27000 cSt) |
| VOC content | : | 0.006 lbs/gal (0.72 g/l) |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : No specific data. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

<u>Specific target organ toxicity (repeated exposure)</u> Not available.

Section 11. Toxicological information

Aspiration hazard

Not available.

| Information on the likely routes of exposure | : | Routes of entry anticipated: Oral, Dermal, Inhalation. |
|--|-------------|---|
| Potential acute health effects | <u>s</u> | |
| Eye contact | : | No known significant effects or critical hazards. |
| Inhalation | : | May give off gas, vapor or dust that is very irritating or corrosive to the respiratory system. |
| Skin contact | 1 | No known significant effects or critical hazards. |
| Ingestion | : | Corrosive to the digestive tract. Causes burns. |
| Symptoms related to the phy | <u>/sic</u> | cal, chemical and toxicological characteristics |
| Eye contact | 1 | No specific data. |
| Inhalation | 1 | No specific data. |
| Skin contact | 1 | No specific data. |
| Ingestion | : | Adverse symptoms may include the following: stomach pains |
| Delayed and immediate effect | <u>cts</u> | and also chronic effects from short and long term exposure |
| Short term exposure | | |
| Potential immediate effects | : | Not available. |
| Potential delayed effects | : | Not available. |
| Long term exposure | | |
| Potential immediate effects | : | Not available. |
| Potential delayed effects | : | Not available. |
| Potential chronic health eff | ect | <u>s</u> |
| Not available. | | |
| General | : | No known significant effects or critical hazards. |
| Carcinogenicity | : | No known significant effects or critical hazards. |
| Mutagenicity | : | No known significant effects or critical hazards. |
| Teratogenicity | : | No known significant effects or critical hazards. |
| Developmental effects | : | No known significant effects or critical hazards. |
| Fertility effects | : | No known significant effects or critical hazards. |
| | | |

Numerical measures of toxicity

Acute toxicity estimates Not available.

Section 12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Section 12. Ecological information

Bioaccumulative potential

Not available.

| <u>Mobility in soil</u> | |
|--|------------------|
| Soil/water partition coefficient (Koc) | : Not available. |

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal **Disposal methods** of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

| | DOT Classification | TDG Classification | Mexico Classification | ADR/RID | IMDG | ΙΑΤΑ |

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
